

Dear Patients,

I am excited to announce that we have a new Dr. "B" here at Mountain View Orthodontics, Dr. Sebastian Baumgaertel! I have been searching for the right person with a similar treatment philosophy and dedication to orthodontic excellence to join our practice, and I have finally found that person in Dr. Baumgaertel.

As a widely published author, Dr. Baumgaertel is well-known and respected in the orthodontic community. He attended Case Western Reserve University in Cleveland, OH for his orthodontic residency and has practiced there for 15 years while also instructing the orthodontic residents as a Professor at the University. Sebastian is world-renowned for his groundbreaking research, innovation, and teaching skills regarding orthodontic Temporary Anchorage Devices (TADs). Google his name to learn more about our new Dr. "B".

It is not surprising that Sebastian and his fiancé, Edith, have loved their numerous trips to Colorado and have long wanted to move to our better, more outdoor-oriented climate (recent rainy weather excepted 😊). I think you will find as I have that Dr. Baumgaertel is the ideal person to propel Mountain View Orthodontics into the future.

In the coming weeks, we will be introducing you to Dr. Baumgaertel during your visits. I can assure you that his expertise and passion for orthodontics will impress you as much as it has me. Thank you for being a part of our Mountain View Orthodontics family. We are excited about the future and look forward to continuing to provide you with the excellent orthodontic care you deserve. Enjoy the rest of your summer!

See you soon,

Dr. Beckwith
